ADVANCED CPR TRAINING SIMULATOR | COMPUTER CONTROL

PRODUCT CODE: DM-CPR6000/DM-CPRG000P

FEATURES

- > Full body CPR simulator
- > Computer control through provided application software
- > Airway status indication on software interface
- Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indicated on software interface
- > Chest compression, pressing position and depth indicated on software interface

- > Practice indication in comply with the latest AHA CPR & ECC Guideline
- > Interchangeable pupils for vital signs observation
- > Three training modes: Free practice, AHA standard practice, Examination (system auto score in examination mode print out)
- Upgrade option: Equipped with a PAD, DM-CPR6000P

ADVANCED CPR & TRAUMA EVALUATION SIMULATOR

PRODUCT CODE: DM-CPR5001/DM-CPR5001W

FEATURES

- Full body CPR simulator with LCD display monitor (built in thermal printer)
- > Remote for guiding standard first aid procedure
- > Airway status indication on monitor
- Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- > Chest compression, pressing position and depth indicated on monitor
- Practice indication in comply with the latest AHA CPR
 & ECC Guideline
- > Interchangeable pupils for vital signs observation

- > Three training modes: Free practice, AHA standard practice, Examination (system auto score in examination mode print out)
- Thermal printer, printing out practice briefing, examination result
- > Catheterization practice, both gender exchangeable
- > Trauma evaluation set
- > Upgrade option: DM-CPR5001W (Wireless monitor)

ADVANCED CPR TRAINING SIMULATOR WITH LCD DISPLAY MONITOR

PRODUCT CODE: DM-CPR5000

FEATURES

- > Full body CPR simulator with LCD display monitor
- > (built in thermal printer)
- > Remote for guiding standard first aid procedure
- > Airway status indication on monitor
- > Manual carotid pulses through pulse bulb
- Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- Chest compression, pressing position and depth indicated on monitor
- Practice indication in comply with the latest AHA CPR
 & ECC Guideline

- > Interchangeable pupils for vital signs observation
- > Three training modes: Free practice, AHA standard practice, Examination (system auto score in examination mode print out)
- > Thermal printer, printing out practice briefing, examination result

ADVANCED CPR TRAINING SIMULATOR

PRODUCT CODE: DM-CPR4000/DM-CPR4000W

- > Full body CPR simulator with LED light Monitor (built in printer)
- > Remote for guiding standard first aid procedure
- Airway status indication on monitor
- Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- > Chest compression, pressing position and depth indicated on monitor

- Practice indication in comply with the latest AHA CPR & ECC Guideline
- > Interchangeable pupils for vital signs observation
- Three training modes: Free practice, AHA standard practice, Examination (system auto score in examination mode print out)
- > Thermal printer, printing out practice briefing, examination result
- > Upgrade option:DM-CPR4000W (Wireless monitor)

FULL BODY CPR TRAINING SIMULATOR

PRODUCT CODE: DM-CPR3000/DM-CPR3000W

FEATURES

- > Full body CPR simulator with LED light Monitor (built in printer)
- > Airway status indication on monitor
- > Manual carotid pulses through pulse bulb
- Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- > Chest compression, pressing position and depth indicated on monitor
- Practice indication in comply with the latest AHA CPR& ECC Guideline

- > Interchangeable pupils for vital signs observation
- Three training modes: Free practice, AHA standard practice, Examination (system auto score in examination mode print out)
- > Print out practice briefing, examination result
- > Upgrade option:DM-CPR3000W (Wireless monitor)

BASIC FULL BODY CPR TRAINING SIMULATOR

PRODUCT CODE: DM-CPR2300/DM-CPR2300W

FEATURES

- > Full body CPR simulator with smart monitor (LED light and voice indication)
- > Airway status indication on monitor
- > Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- Chest compression, pressing position and depth indicated on monitor

- > Practice indication in comply with the latest AHA CPR & ECC Guideline
- > The wire monitor is optional
- Upgrade option:DM-CPR2300W(Wireless monitor)

HALF BODY CPR TRAINING SIMULATOR | SMART MONITOR

PRODUCT CODE: DM-CPR2000/DM-CPR2000W

FEATURES

- > Half body CPR simulator with smart monitor (LED light and voice indication)
- > Airway status indication on monitor
- > Manual carotid pulses through pulse bulb
- Ventilation through mouth to mouth or pocket mask, volume indicated on monitor
- Chest compression, pressing position and depth indicated on monitor

- > Practice indication in comply with the latest AHA CPR & ECC Guideline
- > The wire monitor is optional
- > Upgrade option: DM- CPR2000/DM-CPR2000W

HALF BODY CPR TRAINING SIMULATOR |LIGHT INDICATION

PRODUCT CODE: DM-CPR1950

FEATURES

- > Half body CPR simulator
- > LED lights & sound indication in comply with the latest AHA CPR & ECC Guideline
- Airway status indication
- > Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indication
- > Chest compression, pressing position and depth indication

HALF BODY CPR TRAINING SIMULATOR IVOICE INDICATION

PRODUCT CODE: DM-CPR1950S

- > Half body CPR simulator
- > Built in voice indication system in comply with the latest AHA CPR & ECC Guideline
- > Airway status indication
- > Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, volume indication
- > Chest compression, pressing position and depth indication

HALF BODY CPR SIMULATOR

PRODUCT CODE: DM-CPR1900

FEATURES

- > Half body CPR simulator
- > Air way occlusion/open
- > Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask, realistic chest rise and fall
- > Chest compression practice

CHILD CPR TRAINING SIMULATOR

PRODUCT CODE: DM-CPR1700

FEATURES

- > Child CPR simulator with LED lights monitor
- > Air drive sensor monitor indicate practice
- > Airway occlusion/open
- Manual carotid pulses through pulse bulb
- Ventilation through mouth to mouth or pocket mask, volume indication
- > Chest compression depth indication

INFANT CPR TRAINING SIMULATOR

PRODUCT CODE: DM-CPR1600

FEATURES

- > Infant CPR simulator with LED lights monitor
- > Air drive sensor monitor
- > Manual brachial artery pulses through pulse bulb
- > Mouth to mouth ventilation, volume indication
- > Chest compression indication

BASIC ADULT CPR & OBSTRUCTION SIMULATOR

PRODUCT CODE: DM-CPR1550

FEATURES

- > Simulating adult airway obstruction
- > Practice Heimlich maneuver
- > Accurate anatomical structure : head, ribs, breastbone, umbilicus and abdomen
- > Basic CPR operation practice

INFANT OBSTRUCTION & CPR MODEL

PRODUCT CODE: DM-CPR1500

FEATURES

- Simulating airway obstacle, practice back smacking method and chest finger press method
- > Basic CPR operation practice, artificial respiration and chest compression
- > Realistic chest rise and fall
- > Lifelike body scale and accurate anatomical structure, touchable breastbone and ribs.

ADVANCED AIRWAY MANAGEMENT SIMULATOR

PRODUCT CODE: DM-FA6251

- Accurate anatomical structure, realistic feel to the skin, oral cavity, tongue, air way, glottis, larynx, vocal cords.
- > Allow to simulate airway spasm
- Both lungs and stomach can be inflated for testifying intubation position
- > Sound alert when teeth receive excessive pressure from laryngoscope
- > Comparison of normal pupil and dilated pupil
- > Simulation of bilateral carotid artery pulse
- Simulation of swollen tongue or laryngospasm, increase the difficulty of intubation, simulate difficult airway management training.

- > Simulation of flatulence and vomiting, increase the difficulty of intubation
- > Trainees can practice using various apparatus including endotracheal tubes, laryngeal masks, combination
- Usingbronchoscope to practice the mouth or nose bronchus suction

ADVANCED ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA5003

FEATURES

- > Oral/nasal cavity intubation practice and demonstration
- Electronic monitor, LED light and voice indication, lungs and stomach can be inflated for testifying intubation position
- > Teeth pressure alarm when using laryngoscope Comparison of normal pupil and dilated pupil

TRAECHEOTOMY & ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA5058

FEATURES

- > Standard tracheotomy position, touchable trachea for locating cutting position
- Accurate structure: thyroid cartilage, cricoid cartilage, crico-thyroid membrane
 Practice percutaneous thyrocricoid puncture, cricothyrotomy, tracheotomy
- > Different cuttings: vertical, horizontal, cross shape, "U" shape, reverse "U" shape Replaceable trachea and neck skin

ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA5050

FEATURES

- Accurate anatomical structure, suitable for practice and demonstration
- Both lungs and stomach can be inflated for testifying intubation position
- > Sound alert when teeth receive excessive pressure from laryngoscope

INFANT ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA6247

FEATURES

- Realistic anatomical structure, include tongue, oral pharynx, epiglottis, vocal cords and trachea
- > Intubation through oral/nasal cavity
- > Simulating infant head movement
- > Blow to inflate lungs

NEONATAL ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA6248

FEATURES

- New born male baby, realistic texture Practice intubation via oral cavity
- > Chest movement for testifying correct intubation
- > Basic CPR skill practice

CHILD ENDOTRACHEAL INTUBATION MODEL

PRODUCT CODE: DM-FA6249

FEATURES

- > Realistic anatomical structure
- > Realistic anatomical structure, include tongue, oral pharynx, trachea, etc.
- > Intubation via oral/nasal cavity
- > Head lift to open air way
- > Blow to inflate lungs or stomach to verify intubation position

CRICO-THYROID PUNCTURE MODEL

PRODUCT CODE: DM-FA6803

FEATURES

- > Realistic texture
- Cricothyroid membrane puncture, tracheostomy, cricothyroid membrane incision, etc.
- Repeated practice and exchangeable skin and tracheal cartilages

DISPOSABLE CPR FACE SHIELD SHEET

PRODUCT CODE: DM-FA6824

- Operator must use face shield sheetwhilepracticing CPR to prevent cross infection
- > Made by dual layer sterile dustsheet, highly effective in isolating saliva, dustproof, etc.
- > Spec:50 sheets/box

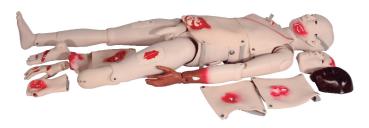

TRAUMA NURSING SIMULATOR

PRODUCT CODE: DM-FA6806

FEATURES

- Complete nursing skill training functions (as model DM-NS6001)
- > Equipped with trauma evaluation component sterilizing, stop bleeding and bandaging
- Facial burn degree I, II, III
- Forehead open wound
- Jaw trauma
- Open fracture of clavicle and chest contusi
- Abdominal trauma with exposed small intes
- Right arm humerus open fracture

- Right hand open fracture, soft tissue laceration
- Left hand bullet wound
- Right thigh composite femoral fracture
- Right thigh sharp metal stab wound
- Right leg open compound fracture
- Right feet compound fracture, little toetruncation
- Left arm burn degree I, II, III
- Leg amputation
- Left thigh truncation trauma
- Thigh muscle injury

TRAUMA EVALUATION SET

PRODUCT CODE: DM-FA6805

FEATURES

- ➤ 16 trauma components, life like texture, practice cleaning, sterilizing, stop bleeding and bandaging
- > Trauma components include:
 - Facial burn degree I, 11, III
 - Forehead open wound
 - Jaw trauma
 - Open fracture of clavicle and chest contusion
 - Abdominal trauma with exposed small intestine
 - Right arm humerus open fracture
 - Right hand open fracture, soft tissue laceration
 - Left hand bullet wound
 - Right thigh composite femoral fracture

- Right thigh sharp metal stab wound
- Right leg open compound fracture
- Right feet compound fracture, little toetruncation
- Left arm burn degree I, II, III
- Left thigh truncation trauma
- Leg amputation
- Thigh muscle injury

AED TRAINER

PRODUCT CODE: DM-FA6822

FEATURES

- > Demonstrate the basic skills necessary to use the defibrillator in an emergency
- The AED trainer provides simulated shock delivery, it has no high-voltage capabilities, ensuring safety during training
- > The AED trainer can be used within an optional infrared remote control, the remote control gives the instructor the ability to alter training scenarios while in progress, to test student response
- > The AED trainer is pre-configured with 9 training scenarios that simulate realistic sudden cardiac arrest episodes, these scenarios are compatible within training programs developed by nationally and internationally recognized responder programs

HALF BODY CPR TRAINING SIMULATOR WITH AED TRAINER

PRODUCT CODE: DM-FA6823

FEATURES

- > Half body CPR simulator
- > Air way occlusion/open
- Manual carotid pulses through pulse bulb
- > Ventilation through mouth to mouth or pocket mask,
- > realistic chest rise and fall

Chest compression practice AED Trainer

ARM AMPUTATION AND STOP BLEEDING MODEL

PRODUCT CODE: DM-FA6839

FEATURES

- Life like texture, practice cleaning, sterilizing,
 stop bleeding and banda ging
- > Trainees can practice brachia! artery oppression hemostasis
- > Simulate blood flow

LEG AMPUTATION AND STOP BLEEDING MODEL

PRODUCT CODE: DM-FA6840

- Life like texture, practice cleaning, sterilizing, stop bleeding and bandaging
- > Trainees can practice femoral artery oppression hemostasis
- > Simulate blood flow

VITAL SIGNS & TRAUMA EVALUATION NURSING SIMULATOR

PRODUCT CODE: DM-NS1016

FEATURES

- > Clear anatomical marks
- > Sponge bath in bed, change dress, pupil observation, ear canal clean
- Assisting patient walking, use wheel chair, stretcher transportation
- > Practice turn over patient, constraint methods
- Oxygen inhalation method
- > Nasal feeding, gastric lavage
- > Mouth care
- > Sputum aspiration
- > Intramuscular injection, hypodermic injection
- > Venipuncture injection, transfusion (blood)
- > Ostomy care, drainage
- > Catheterization (male/female exchangeable), bladder irrigation
- > Enema
- > Simulation system: Simulating voice, heart sound, breath sound, abdominal cavity sound, total 60 types

sound , include 21 voice (cough , throw up, sneeze , etc.), 20 heart sound, 13 breath sound, 6 abdominal cavity sound

- Control box, customer friendly interface
- Allow to play 5 types sound simultaneously, combination can be set at will
- 6 grades volume, each type sound's volume can be set individually
- LCD display
- External speaker can be connected to system for demonstration in large class, or connected earphone for self - study
- > Blood pressure measurement
- > Trauma evaluation

FULL FUNCTIONAL NURSING SIMULATOR

PRODUCT CODE: DM-NS1019

FEATURES

- Accurate and clear anatomical characteristics, pupil observation, nursing eye, ear, nose, scrub body on the bed, change clothes
- > Practice various methods of transporting patient
- > Oxygen inhalation, atomizing inhalation therapy
- > Nasal feeding , gastric lavage
- > Mouth care, dental prosthesis care
- > Sputum suction
- > Intramuscular injection, hypodermic injection
- > Arm venipuncture, injection, transfusion
- > Fistula nursing

- > Catheterization (male/female exchangeable), bladder irrigation
- > Bedsore nursing
- > Enema practice
- > Blood pressure measurement

SENGSTAKEM-BLACKMORE SIMULATOR

PRODUCT CODE: DM-NS1037

- > Adult manikin, clear anatomical characteristic, internal organs
- > Simulating gastric fundus venous bleeding and practice rescue treatment to stop bleeding
- Catheterization
- > Compression of Sengstaken-blackmore tube
- > Gastric tube, gastric lavage
- > Atomizing inhalation therapy
- > Venipuncture

- > Intramuscular injection, intradermal inje
- Oxygen inhalation
- > Enema

MULTI-FUNCTIONAL ELDERNURSING SIMULATOR

PRODUCT CODE: DM-NS1088/DM-NS1089

FEATURES

- > Elder people simulator, realistic body characteristics
- > Wash face, nursing eye, ear, nose, scrub body on the bed, change clothes
- Flexible limbs and joints allow to stage manikin in various positions, transport patients, change bed, rehabilitation movements
- > Bilateral, unilateral oxygen inhalation
- > Atomizing inhalation therapy
- > Nasal feeding:
- > Extracting simulated gastric juice
- > Gastric lavage: practice through oral/nasal cavity, stomach capacity up to 500ml
- > Female breast nursing (only for female)
- > Intravenous injection:
 - Realistic feedback, blood backflow
 - Repeated puncture on same spot
- > Intramuscular injection:
- on the upper arm deltoid; gluteus maxim us, outer gluteal muscle
- intramuscular injection padcan be removed for cleaning, allow repeated practice
- > Hypodermic Injection:

- on lower edge of deltoid
- insulin injection pad
- > Fistula lavage exercise
- > Catheterization
 - male/female exchangeable
 - realistic anatomical structure, male urethral canal length 10-20cm, female urethral canal length
 3 Scm
 - success operation can extract "urine"
- > Bladder irrigation
- > Enema
- > Decubitus care
- > Thoracic and abdominal puncture training: the thorax, the liver, the left side of the bone marrow, and lumbar puncture
- > Blood pressure measurement
- > Male (DM-NS1088)/ Female (DM-NS1089)

ADVANCED INTRAVENOUS INJECTION ARM

PRODUCT CODE: DM-NS6003

FEATURES

- > Adult arm, realistic blood vessels
- Include basilic vein, median cubital vein, median antebrachial
- > Skin and vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

- > Intramuscular injection: deltoid
- > Right/left hand optional

MULTI-FUNCTIONAL NURSING SIMULATOR

PRODUCT CODE: DM-NS6001/DM-NS6002

FEATURES

- > Wash face, nursing eye, ear, nose, scrub body on the bed, change clothes
- > Flexible limbs and joints allow to stage manikin in various positions, transport patients, change bed, rehabilitation movements
- > Bilateral, unilateral oxygen inhalation
- > Atomizing inhalation therapy
- > Nasal feeding:
 - nasal feeding for patients in coma
 - extracting simulated gastric juice
- Gastric lavage: practice through oral/nasal cavity, stomach capacity up to 500ml
- > Female breast nursing
- > Intravenous injection:
 - Realistic feedback, blood backflow
 - Repeated puncture on same spot
- > Intramuscular injection:
 - on the upper arm deltoid; gluteus maximusn, outer gluteal muscle
 - intramuscular injection padcan be removed for cleaning, allow repeated practice

- > Hypodermic Injection:
 - on lower edge of deltoid
 - insulin injection pad
- > Fistula lavage exercise
- > Catheterization
 - male/female exchangeable
 - realistic anatomical structure, male urethral canal length 10-20cm, female urethral canal length 3-Scm
 - success operation can extract "urine"
- > Bladder irrigation
- > Enema
- > male head(DM-NS6001)/female head(DM-NS6002)

ECONOMIC I.V.ARM

PRODUCT CODE: DM-NS6004

- > Adult arm, realistic blood vessels
- Include basilic vein, median cubital vein, median antebrachial vein, etc.
- > Skin and vessel are replaceable
- > Intramuscular injection: deltoid

MULTI-FUNCTIONAL INTRAVENOUS INJECTION ARM

PRODUCT CODE: DM-NS6005

FEATURES

- > Adult arm, realistic blood vessels
- > Include basilic vein, median cubital vein, median antebrachial vein, etc.
- > Skin and vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
- Repeating practice on same spot
- > Intramuscular injection: deltoid
- > Hypodermic injection
- > Intradermal injection
- > Right/left hand optional

INTRAVENOUS INJECTION ARM

PRODUCT CODE: DM-NS6006

FEATURES

- > Adult arm, realistic blood vessels
- > Skin and vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

OPISTHENAR INTRAVENOUS INJECTION HAND

PRODUCT CODE: DM-NS6007

FEATURES

- > Adult hand
- > Complete hand vein system, skin and blood vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

ECONOMIC INTRAVENOUS INJECTION FOREARM

PRODUCT CODE: DM-NS6007S

FEATURES

- > Adult forearm, included both right and left arm
- > Complete hand vein system, skin and blood vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

CHILD INTRAVENOUS INJECTION ARM

PRODUCT CODE: DM-NS6061

FEATURES

- > Child arm, include elbow veins and hand veins
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot
- > Skin and blood vessel are replaceable

ADVANCED INTRAVENOUS INJECTION ARM (ELECTRONIC CIRCULATION)

PRODUCT CODE: DM-NS7006

FEATURES

- > Adult arm, life like texture, realistic vessel system
- Complete arm and hand vein system (basilic vein, venae mediana cubiti, venae mediana antebrachii, etc.)
- > Skin and blood vessel are replaceable Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot
- > Intramuscular injection: deltoid
- > Blood circulation simulation
- > Adjustable blood flow speed, pulse frequency & intensity
- > Recycling blood

ELDER INTRAVENOUS INJECTION ARM

PRODUCT CODE: DM-NS6062

FEATURES

- > Elder arm, life like texture, realistic blood vessels
- Accurate anatomical structure, include basilic vein, median cubital vein, median antebrachial vein, etc., realistic feedback and blood backflow
- > Skin and vessel are replaceable

OPISTHENAR INTRAVENOUS INJECTION MODEL

PRODUCT CODE: DM-NS6008

- > Wearable design
- > Contains three blood vessels
- > Venipuncture
 - I.V., blood sampling, etc
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

1 35

ARTERY INJECTION ARM

PRODUCT CODE: DM-NS6009

FEATURES

- > Adult arm
- > Skin and blood vessel are replaceable
- > Detectable brachia! artery and radial artery
- > Artery blood sampling: realistic feedback, blood ejecting

ARTERY & VEIN ARM

PRODUCT CODE: DM-NS6010

FEATURES

- > Adult arm, realistic blood vessels
- > Skin and vessel are replaceable
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot
- > Detectable brachia! artery and radial artery
- > Artery blood sampling: realistic feedback, blood ejecting

ARTERY ARM (ELECTRONIC MECHANICAL ROTATION)

PRODUCT CODE: DM-NS6011A

FEATURES

- > Adult arm, realistic skin and blood vessel
- > Built-in electronic device to simulate pulse
- Correct puncture gives realistic feedback and simultaneous blood ejecting
- Mechanical rotation device to shift used blood vessel
- > Skin and blood vessel are replaceable

FOREARM PAD FOR INTRAVENOUS INJECTION

PRODUCT CODE: DM-NS6012

FEATURES

- > Wearable design
- > Replaceable skin and blood vessel
- > Venipuncture
 - I.V., transfusion, blood sampling, etc.
 - Realistic feedback, blood backflow
 - Repeating practice on same spot

WEARABLE UPPER ARM FOR DELTOID INTRAMUSCULAR & HYPODERMIC INJECTION

PRODUCT CODE: DM-NS6014

FEATURES

- > Wearable design
- Precise anatomical structure
- Electronic monitoring system, indicating injection position, depth by different color lights and sound alarms Intramuscular injection
- > Hypodermic injection

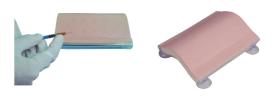

INTRADERMAL INJECTION PAD

PRODUCT CODE: DM-NS6016

FEATURES

- > 30 injection spots
- > Plastic stand
 - Intradermal injection
 - Realistic feedback, similar to negative result in skin test
 - Allow repeating practice

INTRADERMAL INJECTION SLEEVE

PRODUCT CODE: DM-NS6017/DM-NS6017A

FEATURES

- > 16 injection spots on sleeve model which can be wore on arm for practice
- > Intradermal injection
 - Realistic feedback, similar to negative result in skin test
 - Allow repeating practice
- > Upgrade option : DM-NS6017A

MULTI-FUNCTIONAL INJECTION MODEL

PRODUCT CODE: DM-NS6018

- > Rotation design allow shift used part away and increase use life of the model
- > Plastic base
- > Intramuscular injection
- > Intradermal injection: realistic skin test feedback
- > Hypodermic injection

INTRAMUSCULAR INJECTION MODULE

PRODUCT CODE: DM-NS6019

FEATURES

- > Life like texture
- > Precise structure
- > Intramuscular injection, hypodermic injection
- > Optional colors (brown, yellow, dark, etc.)

WEARABLE BUTTOCK FOR **GLUTEAL INTRAMUSCULAR** INJECTION MODEL

PRODUCT CODE: DM-NS6021

FEATURES

- > Wearable design
- > Clear anatomical structure
- > Built-in monitoring system, indicating position, depth by LED light and sound alert
- > Allow injecting "potion ", convenient drain outlet

ECONOMIC INJECTION BUTTOCK

PRODUCT CODE: DM-NS6020

FEATURES

- > Adult buttock
- > Clear locating mark
- > Gluteus maxim us intramuscular injection

BUTTOCK FOR GLUTEAL INTRAMUSCULAR INJECTION AND COMPARISON

PRODUCT CODE: DM-NS6022

FEATURES

- > Adult buttock
- > Transparent right side, demonstrate anatomical
- > Electronic monitoring system, indicating injection position, depth by LED light and sound alert
- > Gluteus maxim us injection, allow injecting "potion", convenient drain outlet
- > Gluteus medius, gluteus minimus

BUTTOCK INJECTION MODEL WITH ANATOMICAL **STRUCTURE**

PRODUCT CODE: DM-NS6023

FEATURES

- > Adult buttock, precise anatomical structure
- Left side hip muscles can be disassembled to demonstrate internal anatomical structure
- > Gluteus maximus injection
- > Gluteus medius gluteus minimus

DETACHABLE INTRAMUSCULAR INJECTION BUTTOCK

PRODUCT CODE: DM-NS6028

FEATURES

- > Adult buttock, precise anatomical structure
- Both sides are suitable for injection practice, realistic texture
- > Electronic monit oring , indicating injection position, depth by LED lights and sound alert
- > Gluteus maximus injection, allow injecting "potion", convenient drain outlet
- > Gluteus medius gluteus minimus
- Replaceable Skin and injection pad

DECUBIS CARE MODEL

PRODUCT CODE: DM-NS6025

FEATURES

- > Model represent elder patient's buttock
- > Demonstrate four stage's characteristics of decubitus
- > Ulcer evaluation and treatment

DECUBIS NURSING SET

PRODUCT CODE: DM-NS6026

- > 6 wearable skin demonstrate different stage of decubitus development
- > Ulcer evaluation and treatment

FEATURES

- > Adult head and neck, left side face is detachable to expose vertical section and allow observation of whole process
- > Precise anatomical structure
- > Intubation through nasal, mouth
- > Tracheotomy

BLOOD PRESSURE MEASUREMENT ARM

PRODUCT CODE: DM-NS6029

FEATURES

- > Consist of adult arm, blood pressure gauge, stethophone, signal converting box
- > Adjustable systolic pressure, diastolic pressure, pulse frequency and volumn
- > Range: systolic pressure 70-250mmHg, diastolic pressure 40-140mmH pressure setting accuracy lmmHg, pulse frequency 0-220 times/min
- > Blood pressure measurement
- > Detectable radial artery pulse

BLOOD PRESSURE MEASUREMENT ARM

PRODUCT CODE: DM-NS6030

FEATURES

- > Life size, precise anatomical structure, convenient observation through transparent shell
- > Lifelike appearance, urethral canal length 3-Scm
- > Female catheterization
 - Realistic resistance feedback during process
- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

ELECTRONIC TRANSPARENT FEMALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6030A

FEATURES

- > Life size, precise anatomical structure, convenient observation through transparent shell
- Lifelike appearance, urethral canal length 18-20cm
- > Female catheterization
- Realistic female urethra characteristic, when the catheter reached the internal urethral orifice, the yellow light flashing and with buzz sound
- When the catheter reached the urinary bladder, the green light flashing and with buzz sound
- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

TRANSPARENT FEMALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6031

FEATURES

- > Life size,precise anatomical structure, convenient observation through transparent shell
- > Lifelike appearance, urethral canal length 3-Scm
- > Female catheterization
 - Realistic female urethra characteristic

- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

ELECTRONIC TRANSPARENT FEMALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6031A

- > Life size, precise anatomical structure, convenient observation through transparent shell
- > Lifelike appearance, urethral canal length 3-Scm
- > Female catheterization
 - Realistic female urethra characteristic, when the catheter reached the internal urethral orifice, the yellow light flashing and with buzz sound
- When the catheter reached the urinary bladder, the green light flashing and with buzz sound
- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

MALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6032

FEATURES

- > Real life size
- > Realistic appearance and texture, urethral canal length 18-20cm
- Male catheterization
 - Realistic resistance feedback during process
 - "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

MONITORING MALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6032A

FEATURES

- > Monitoring male catheterization
 - When catheter passing pubic bone, red light flash and buzzing simultaneously
 - When catheter passing urethra, yellow light flash and buzzing simultaneously
 - After catheter enter urethra about 20cm and reach bladder, green light illuminate and "urine" flow out from catheter
- > Real life size

- > Realistic appearance and texture, urethral canal length 18-20cm
- > Male catheterization
 - Realistic resistance feedback during process
- "Urine" flow out after catheter successfully enter bladder

FEMALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6033

FEATURES

- > Real life size, realistic texture
- > Lifelike appearance
- > Realistic appearance, urethral canal length 3-Scm
- > Female catheterization
 - Realistic female urethra characteristic

- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

MONITORING FEMALE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6033A

FEATURES

- > Monitoring female catheterization
 - When catheter passing urethra, yellow light flash and buzzing simultaneously
 - After catheter enter urethra about 4cm and reach bladder, green light illuminate and "urine" flow out from catheter
- > Real life size

- > Realistic appearance, urethral canal length 3-Scm
- > Female catheterization
 - Realistic female urethra characteristic
- "Urine" flow out after catheter successfully enter bladder
- > Bladder irrigation

GENDER EXCHANGEABLE CATHETERIZATION MODEL

PRODUCT CODE: DM-NS6044

FEATURES

- > Lower adult body, flexible position
- > Male/female exchangeable
- > Precise anatomical structure, male urethral canal length 18-20cm, female urethral canal length 3-Scm
- > Buttock injection
- > Insulin injection
- > Ostomy nursing

MONITORING CATHETERIZATION & ENEMA MODEL

PRODUCT CODE: DM-NS6070

- > Male catheterization, monitoring system, indication during process
- Monitoring male catheterization
- When catheter passing pubic bone, red light flashing and with buzzing sound
- When the catheter reached the internal urethral orifice, the yellow light flashing and with buzzing sound
- After catheter enter urethra about 20cm and reach bladder, green light flashing and "urine" flow out from catheter, about 200ml
- > Monitoring female catheterization
 - When the catheter reached the internal urethral

- orifice, the yellow light flashing and with buzzing
- After catheter enter urethra about 4cm and reach bladder, green light flashing and "urine" flow out from catheter, about 200ml
- > Enema, Model support for left lateral position, anal tube insert to the rectum about 10 cm, connecting and hanging on the enema bag, capacity 500ml

MONITORING ENEMA MODEL

PRODUCT CODE: DM-NS6071

FEATURES

- Real life size, common position for enema, left-lateral posit
- > Precise anatomical structure, realistic resistance feedback
- Retention enema, Non retention enema, cleaning enema
- Monitoring system with alert indication

ENEMA AND DEFECATION ASSISTING MODEL

PRODUCT CODE: DM-NS6035

FEATURES

- > Real life size, standard enema position
- > Convenient to disassemble and clean
- > Simple defecation
- > Manual feces removal
- > Glycerin enema

ENEMA PRACTICE MODEL

PRODUCT CODE: DM-NS6034

FEATURES

- > Life size, realistic texture, common position for enema, left-lateral pos
- > Allow injecting liquid
- > Practice multiple methods of enema

NASAL FEEDING & GASTRIC LAVAGE MODEL

PRODUCT CODE: DM-NS6036

FEATURES

- Life like, clear anatomical structure, include:
 head, neck, chest, real size lungs and stomach
- > Transparent abdominal wall, clear observation of internal organs
- > Oral/nasal cavity intubation
- > Nasal feeding
- > Gastric lavage: stomach capacity 500ml

TRANSPARENT GASTRIC LAVAGE MODEL

PRODUCT CODE: DM-NS6037

FEATURES

- > Upper torso of adult male, multi-position gastric lavage
- Precise anatomical structure, include: nasal cavity, oral cavity, teeth, tongue, uvula, vocal cord, trachea, bronchi, lungs, esophagus, stomach, liver, diaphragmatic muscle, duodenum, colon, etc.
- Transparent abdominal wall for convenient observation of operation process

- > Gastric lavage through nasal/oral cavity
- > Nasal feeding, oxygen therapy, mouth care, sputum
- > Alert light system, demonstrating duodenal drainage

TRACHEOTOMY NURSING MODEL

PRODUCT CODE: DM-NS6039

FEATURES

- Clear elder body characteristic, include: pharynx, epiglottis, trachea, esophagus, bronchus, cricoid cartilage, cervical vertebra, etc
- Tracheotomy nursing Sputum suction through oral, nasal cavity or tracheal opening
- > Cleaning and storage of tracheal cannula

FISTULA OSTOMY NURSING MODEL

PRODUCT CODE: DM-NS6042

FEATURES

- > Reproduces colostomy and ileostomy
- > Equipped with artificial feces, which can be diluted with water for repeated use
- > Model is mounted on a base, which is convenient to place in a proper posture
- > Postoperative ostomy care: ostomy bag replace-

ment, stoma irrigating

> Feces cleaning practice with a bag

EAR IRRIGATION MODEL

PRODUCT CODE: DM-NS6050

FEATURES

- > Standard position
- > Accurate ear anatomical structure
- > Practice ear irrigation operation

ENLARGED DENTAL CARE MODEL

PRODUCT CODE: DM-NS6501

FEATURES

- > 5 times enlarged dental model
- > Flexible oral cavity
- > Demonstration of proper brushing method
- > Mouth care

DIABETES FOOT MODEL

PRODUCT CODE: DM-NS6054

FEATURES

- > Model is a diabetes patient's foot
- > Pathological change on back and bottom of foot caused by diabetes
- > Condition evaluation and nursing

DENTAL CARE MODEL

PRODUCT CODE: DM-NS6502

FEATURES

- > 1.5 times enlarged dental model
- > Precise anatomical structure, include: jaw, gum, upper dental arch, inferior dental arch, tongue
- > Mouth care
- > Demonstration of proper brushing teeth method

TEETH MODEL IN ORAL CAVITY

PRODUCT CODE: DM-NS6503

FEATURES

- > Life size, dental and oral cavity are separable
- Precise anatomical structure, include: jaw, gum, upper dental arch, inferior dental arch, tongue
- > Mouth care
- > Demonstration of proper brushing teeth method

BIG TEETH CARE MODEL

PRODUCT CODE: DM-NS6506

FEATURES

- > 5 times enlarged dental model
- > 32 teeth, removable
- > Mouth care
- > Demonstration of proper brushing teeth method

DENTAL CARIES DEVELOPMENT MODEL

PRODUCT CODE: DM-NS6504

FEATURES

Model consists of 4 detachable molar teeth mounted on gum base, demonstrating development of dental caries

DENTAL CARIES DEVELOPMENT MODEL

PRODUCT CODE: DM-NS6026

- > Life size, model consists of 3 sets of teeth
- > Demonstrating development of dental caries

MATERNAL & NEONATAL DELIVERY AND EMERGENCY SIMULATOR

PRODUCT CODE: DM-GP6642

FEATURES

MATERNITY SIMULATOR FUNCTIONS:

- > Built in electronic mechanical device simulate childbirth process automatically
- > Delivery control boxhas 4 speeds setting option to control childbirth process
- > Fetal heart sound can be set from delivery control box at range of "80-180"
- > Simulating various birthing situations: head birth, breech delivery, cord around neck, placenta previa, etc
- > Realistic cervix
- > Leopold's maneuvers
- > Antepartum Cervix Change and Birth Canal
- > Relationship Models(6 pcs), can be installed on simulator for training
- > Measurement of fetal descending, cervix expansion
- > Multi position of fetus
- > Arm transfusion
- > Vulva suture

- > Air way intubation
- > CPR practice (equipped with CPR monitor for indication)
- > Carotid pulse
- > Blood pressure measurement

NEW BORN BABY FUNCTIONS:

- > Venipuncture
- > Nursing skill training: eye drop, cleaning, enwrapping, etc
- > Oral/nasal intubation, sputum aspiration, gastric lavage
- > Umbilical care, scalp intravenous injection, arm venipuncture
- > Infant CPR practice: artificial ventilation, chest

MATERNAL & NEONATAL DELIVERY SIMULATOR IHALF BODY

PRODUCT CODE: DM-GP6643

FEATURES

- > Built in electronic mechanical device simulate childbirth process automatically
- Delivery control boxhas 4 speeds setting option to control childbirth process
- > Fetal heart sound can be set from delivery control box at range of "80-180"
- > Simulating various birthing situations: head birth, breech delivery, cord around neck, placenta previa, etc.
- > Realistic cervix

- > Leopold's maneuvers
- Antepartum Cervix Change and Birth Canal
- > Relationship Models(6 pcs), can be installed on simulator for training
- > Measurement of fetal descending, cervix expansion
- > Multi position of fetus
- > Vulva suture

VAGINAL FLUID EXAMINATION MODEL

PRODUCT CODE: DM-GP6607

FEATURES

- > Female hypogastria, clear anatomical mark, lithotomy position
- > Vaginal fluid extraction
- > Observation of pathological changes of cervix and practice diagnosis
- > Pelvic examination

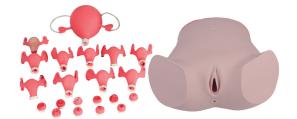

COMPREHENSIVE GYNECOLOGICAL EXAMINATION MODEL

PRODUCT CODE: DM-GP6608

- > Palpation of normal and various abnormal uterus
- > Bimanual examination, trimanual examination
- Vaginal speculum and vaginoscope examination
- Visual observation of normal and abnormal pathological changes
- > IUD placement and extraction
- > Observe diaphragm's size and position
- > Observe anatomical structure of uterus, ovary, fallopian tube, etc
- > The components:
- > (1) Normal and abnormal cervix (Ilpcs)
 - 1. normal cervix
- 2. contraceptive device placing and extracting cervix
- 3. tearing cervicitis
- 4. chronic cervicitis
- 5. acute cervicitis
- 6. cervicitis bathe cysts
- 7. trichomonad sex cervicitis
- 8. cervical condyloma acuminatum
- 9. leukoplakia of cervix
- 10 . cervical polyp
- 11. Adenocarcinoma of the uterine cervix

- > (2)Normal and abnormal uterus and accessories (11 pcs)
- 1. normal uterus and attachments
- 2. contraceptive device placing and extraction uterus
- 3. uterus bend forward (use balloon to adjust position)
- 4. uterus bend backward (use balloon to adjust position)
- 5. fibroid
- 6. tuba-ovarian cyst (right side)
- 7. hydrosalpinx (right side)
- 8. tuberculosis of fallopian tube (right side)
- 9. salpingitis (right side)
- 10. practice using contraceptive ring guide fork to place and extract contraceptive device (transparent)
- 11. gravid uterus (fifth month fetus)

GYNECOLOGICAL EXAMINATION MODEL

PRODUCT CODE: DM-GP6609

FEATURES

- > Female hypogastria, lithotomy position
- Normal and abnormal uterus and accessories available for different gynecological inspection practice. The size of myomas and cysts could be adjusted by the squeeze ball
- > Palpation of normal and various abnormal uterus
- > Bimanual examination, trimanual examination
- > Vaginal speculum and vaginoscope examination
- > Digital examination of rectum training
- > The components:
 - Main body
 - Normal Uterus, backward position could be demonstrated
 - Uterus in early stage of pregnancy

- Uterine myoma I (Intramural)
- submucosal myoma of uterus
- oophoritic cyst I
- oophoritic cyst II

ADVANCED MATERNITY EXAMINATION MODEL

PRODUCT CODE: DM-GP6631

FEATURES

- Pregnant women upper torso, made of special silicon, lifelike skin texture, providing trainees with a realistic experience
- > By inflating air to adjust uterus size and adjustable embryo position
- > Standard skeleton structure, allows external pelvic measurement
- > Adjustable fetal heart sounds at range of 60-200 beats/min,
- > Stethoscope and speaker optional, volume is adjustable
- > Mammary care
- Leopold's 4-step Maneuver Training
- > Fetal heart monitoring

DELIVERY DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6612

FEATURES

- > Model consists of adult female hypogastrium, 2 fetus with placentas, very realistic shape.
- > Standard full-term fetus, flexible joints, demonstration of various fetal positions
- Demonstrate complete childbirth proce ss : engagement, descending, flexion, internal rotation, delivery
- Abdominal skin is removable, equipped with extra transparent abdominal skin for visual demonstration
- > Perineum is soft and elastic, suitable for midwifery

- practice.
- > Demonstrate twins (male& female) delivery
- > Leopold's 4-steps maneuver
- > Delivery mechanism instruction
- > Perineum cutting and suturing
- New born baby nursing

MANUAL ROTATION DELIVERY DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6614

FEATURES

- > Adult female hypogastrium, lithotomy position
- > Equipped with delivery fetus and term fetus:
- Delivery fetus has flexible limbs for delivery process demonstration,
- > Term fetus has soft, lifelike texture for new born baby nursing practice
- > Abdominal skin is detachable, equipped with placenta and umbilical
- > Simulating delivery process through manual rotation

- Demonstrate complete childbirth process : engagement, descending, flexion, internal rotation, delivery
- > Obstetric forceps/aspiration midwifery

MANUAL ROTATION DELIVERY DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6613

- > Adult female hypogastrium, lithotomy position
- > Demonstration of standard delivery process
- > Realistic appearance, accurate anatomical structure
- > Standard fetus, soft texture, recognizable fontanel, fetal head aspiration
- > Flexible limbs, demonstrate various fetus position

52 | LATINFLY GYNECOLOGICAL SKILL TRAINING MODEL | 53

DIFFICULT LABOUR MODEL

PRODUCT CODE: DM-GP6617

FEATURES

- > Adult female lower abdomen
- > Demonstrate difficult labor process: abnormal fetus position, narrow pelvis
- > Equipped with placenta and umbilical cord
- > Flexible limb joints:
 - Recognizable fontanel
 - Fetal head aspiration
 - Umbilical cord care

- > Midwifery practice
- > Difficult labor process
- New born baby nursing

ADVANCED MATERNITY EXAMINATION MODEL

PRODUCT CODE: DM-GP6616

FEATURES

- > Model consist of female pelvis and two fetal heads
- > Two fetal heads are interchangeable, one is term fetus, one is premature
- > Clear detectable sutura cranii, anterior fontanel and posterior fontanel
- > Fetal head can be installed on the flexible rod and demonstrate passing through pelvis
- Direct observation of relationship between fetus and pelvis

- Demonstration of delivery process: engagement, descending, flexion, internal rotation, delivery
- > Demonstration of use of obstetric forceps and vacuum extraction

PERINEUM CUTTING AND SUTURING TRAINING MODEL

PRODUCT CODE: DM-GP6610

FEATURES

- > Consist of 4 parts: left incision, right incision, middle incision and intact
- > Practice cut and suture
- > Same spot can stand repeated practice with inconspicuous needle hole
- > Allow new cut at any position for practice

CERVICAL LESIONS MODEL

PRODUCT CODE: DM-GP6611

FEATURES

- > Demonstrate 2 normal cervix, 6 lesion cervix
- Multipara, nullipara, linear lacerations, acute purulent cervicitis, canceration, polyps, infected cervical glands (follicle), cyst
- Observation, diagnosis of cervical lesions

ARTIFICIAL ABORTION UTERUS DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6632

FEATURES

- > Soft and elastic, realistic appearance
- > All uterus can be opened to place gestation sac
- Cervix allows use of expanding device, curette for uterine curettage practice

ANTEPARTUM CERVIX CHANGE AND BIRTH CANAL RELATIONSHIP MODEL

PRODUCT CODE: DM-GP6633

- > Consists of 6 cervical change and birth canal change module
- > Stage 1: no dilation of cervix, cervical canal does not efface, the position relation between fetal head and plane of ischial, spine- 5,
- > Stage 2: dilation of 2cm of cervix, 50% effacement of cervical canal, position relation between fetal head and plane of ischial spine-4
- > Stage 3: dilation of 4cm of cervix, full effacement of cervical canal,
- position relation between fetal head and plane of ischial spine-3

- > Stage 4: dilation of 5cm of cervix, full effacement of cervical canal, position relationship between fetal head and plane of ischial spine-0
- > Stage 5: dilation of 7cm of cervix, full effacement of cervical canal, position relation between fetal head and plane of ischial spine+2
- > Stage 6: dilation of 10 cm of cervix, full effacement of cervical canal, position relation between fetal head and plane of ischial spine+5

BREAST CANCER EXAMINATION AND PALPATION MODEL

PRODUCT CODE: DM-GP6620

FEATURES

- > Obvious anatomical marks, realistic texture
- > Demonstrate lesions including:
- Lump:
 - Hard texture, rough surface, can be considered as therioma
 - Texture is relatively soft, flat surface, can be regarded as benign tumors
- Lymphatic metastasis: from armpit and neck, trainees can touch hard texture lymph nodes:
- Nipples changes: nipples are depressed, ulcera tion, bloody liquid overflow

- Skin changes : skin is depressed , orange-peel appearance, inflammatory breast can
- Clinical observation and diagnosis of mammary gland

BREAST EXAMINATION MODEL

PRODUCT CODE: DM-GP6621

FEATURES

- > Single female breast, lifelike appearance, realistic texture
- > Self-examination
- > Practice diagnosis and recognize adenoma fibrosum and breast cancer

WEARABLE BREAST SELF-EXAMINATION MODEL

PRODUCT CODE: DM-GP6622

FEATURES

- > Lifelike, realistic texture
- > Can be wore on manikin or trainee
- > Tumor diagnosis
- > Practice breast self-examination

SINGLE BREAST CARE MODEL

PRODUCT CODE: DM-GP6629

FEATURES

- > Single female breast, lifelike appearance, realistic texture
- > Practice feeding combine with infant model
- > Post partum breast care
- > Self-examination

BENIGN TUMOR RESECTION MODEL

PRODUCT CODE: DM-GP6636

FEATURES

- > Adult female breast , lifelike texture
- > Clear anatomical mark
- > Implanted several tumors for resection operation practice
- > Breast self-examination practice

IUD TRAINING MODEL I

PRODUCT CODE: DM-GP6623

- > Demonstrate coronal section of uterus
- > Transparent cover allow observation of IUD placement process

IUD TRAINING MODEL II

PRODUCT CODE: DM-GP6624

FEATURES

- > Demonstrate ovary, fallopian tube, uterus, cervix and coronal section of vagina
- > Transparent cover allow observation of IUD placement process

IUD TRAINING MODEL III

PRODUCT CODE: DM-GP6625

FEATURES

- > Demonstrate ovary, fallopian tube, uterus, cervix and coronal section of vagina
- > Transparent cover allow observation of IUD placement process

VASECTOMY TRAINING MODEL

PRODUCT CODE: DM-GP6626

FEATURES

- > Model simulates an adult male genital structure, realistic shape and texture
- The model is mainly designed for training vasectomy operation
- > Vaginal speculum and vaginoscope examination
- > Vas deferens ligation one of a vasectomy sterilization, Vas deferens is superficial, through the skin can be fixed. And then on the both side of the scrotum, the sparse parts of the vessels for infiltration
- anesthesia; cut the skin, put forward and free vas deferens, cut slightly away from the epididymis, cut about 0.8 cm, then ligation andembedding and suturing
- > Equipped with multiple simulated scrotum, can be replaced

MALE CONDOM DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6627

FEATURES

- > Life size male erectile genital
- > Practice wearing condom

ADVANCED FEMALE CONTRACEPTION MODEL

PRODUCT CODE: DM-GP6654

FEATURES

- > Accurate anatomical structure
- > Transparent design allow observation of operation process
- > Practice bimanual examination, placement and extraction of IUD
- > Demonstrate 3 different position of uterus

PUNCTURE OF POSTERIOR FORNIX OF VAGINAL MODEL

PRODUCT CODE: DM-GP6655

- > Soft and elastic skin, accurate anatomical structure, realistic lesion tissue
- > Correct puncture operation can extract red fluid
- > Incorrect operation may penetrate into rectum and fluid extracted appe to be yellow
- > Incorrect operation also may penetrate through from both sides and damage other organs

IUD PLACEMENT AND EXTRACTION MODEL

PRODUCT CODE: DM-GP6615

FEATURES

- > Female lower abdomen, standard operation position
- > Soft and elastic texture, realistic appearance
- > Practice IUD placement, extraction, standard disinfection operation
- > Suitable for various type of IUD device

TRANSPARENT UTERINE CURETTAGE MODEL

PRODUCT CODE: DM-GP6618

FEATURES

- > Transparent model allow clear visual observation of operation process
- > Soft, realistic vulva
- Accurate anatomical structure: uterus, fallopian tube, ovary, bladder, ureter
- > Fine elasticity for vaginal speculum
- > Cervix is suitable for practice expanding device, curette

- > Transparent design allow observation of 6-7 weeks gestation sac
- > Catheterization

CONTRACEPTION DEMONSTRATION MODEL

PRODUCT CODE: DM-GP6619

FEATURES

- > When closed, model represents female vulva; when opened, model demonstrate longitudinal section of female lower abdomen
- > Clear anatomical structure marks : anus, orificium vaginae, labium majus, labium minus, vagin a, rectum, bladder, symphysis ossium pubis, sacrum, uterus, fallopian tube, ovary, etc.

> Practice placement of female contraception device, demonstration of uterine curettage

EMBRYONIC DEVELOPMENT MODEL

PRODUCT CODE: DM-GP6637

FEATURES

- > Model consist of 8 parts, demonstrate relationship
- > between fetus and uterus in 1st, 2nd, 3rd, 4th, 5th, 6th, 7th month pregnancy, and twins course in the 5 month.

CURETTAGE MODEL

PRODUCT CODE: DM-GP1038

FEATURES

- > Female lower abdomen, standard operation position
- > Soft and elastic texture, realistic appearance, available to use vaginal speculum
- > Accurate anatomical st ruct ure : labium majus , labium minus, vagina
- > Cervix is suitable for practice expanding device, curettage and related operations

SUBCUTANEOUS IMPLANTATION ARM MODEL

PRODUCT CODE: DM-GP6639

- > Model is designed for training of subcutaneous embedding contraceptive (left acetylene progestero-
- > ne silicon rods).
- > Life like texture, the central of arm contains a foam plastic cylinder to simulate arm subcutaneous tissue, the skin and connected subcutaneous tissue cylinder can rotate along the arm
- > Allowing to repeated operation, the skin and rods are replaceable

INFANT NURSING SIMULATOR | MALE 3KG

PRODUCT CODE: DM-PS6602

FEATURES

- > New born female boby, lifelike texture, flexible joints
- > Realistically designed anterior and posterior fontanel, coronal suture, sagittal suture
- > Holding, enwrapping
- > Bathing, cleaning(eyes, ears, noses)
- > Feeding
- > Changing clothes and diapers
- > Oxygen therapy
- > Body measurement (height, weight, bust, circumference of skull, etc.)

- > Skin care, wear spire lamella
- > Thermometry through anus, mouth
- > Testicle inspection

INFANT NURSING SIMULATOR | FEMALE 3KG

PRODUCT CODE: DM-GP6603

FEATURES

- > New born female boby, lifelike texture, flexible joints
- Realistically designed anterior and posterior fontanel, coronal suture, sagittal suture
- > Holding, enwrapping
- > Bathing, cleaning(eyes, ears, noses)
- > Feeding
- > Changing clothes and diapers
- > Oxygen therapy

- > Body measurement (height, weight, bust, circumference of skull, etc.)
- > Skin care, wear spire lamella
- > Thermometry through anus, mouth

PREMATURE | 24 WEEKS

PRODUCT CODE: DM-PS6604

FEATURES

- > 24 weeks premature model, realistic texture
- > Premature observation, physical measurement, anterior fontanel palpation
- > Cleaning and bathing in incubator

PREMATURE | 30 WEEKS

PRODUCT CODE: DM-PS6605

FEATURES

- > 30 weeks premature model, realistic texture
- > Premature observation, physical measurement, anterior fontanel palpation
- > Cleaning and bathing in incubator

UMBILICAL CORD NURSING SIMULATOR | MALE

PRODUCT CODE: DM-GP6606

FEATURES

- Lifelike anterior and posterior fontanel, sutura coronal is, sutura sagittalis
- > Realistic umbilical cord, soft and elastic
- > Simulated red blood can flow inside umbilical vein and artery
- > Umbilical cord ligation treatment with blood outflow
- Umbilical venous blood sampling, umbilical venous

intubation etc.

Umbilical cord is suitable for repeated use and supplied with spare cords for replacement

UMBILICAL CORD NURSING SIMULATOR | FEMALE

PRODUCT CODE: DM-PS6607

- Lifelike anterior and posterior fontanel, sutura coronal is, sutura sagittalis
- > Realistic umbilical cord, soft and elastic
- > Simulated red blood can flow inside umbilical vein and artery
- > Umbilical cord ligation treatment with blood outflow
- Umbilical venous blood sampling, umbilical venous intubation etc.
- > Umbilical cord is suitable for repeated use and supplied with spare cords for replacement

NEWBORN PHYSICAL EXAMINATION MODEL

PRODUCT CODE: DM-PS6608

FEATURES

- > Newborn baby model, lifelike texture
- > Clear touchable front andback fontanel coronal suture biparietal suture
- > Common pediatric body measurement and neonate nursing
- Neonate holding enwrapping
- > Bath
- > Changing napkin, feeding, clean eyes ear nose
- > Common measurement: weight, height, sitting height, head circumference, Chest circumference,

upper-arm circumference, etc.

- > Skin care
- > Male/Female optional

INFANT CATHETERIZATION & CLYSIS MODEL

PRODUCT CODE: DM-GP6609

FEATURES

- > Newborn female baby, lifelike texture
- Clear touchable front andback fontanel coronal suture biparietal suture
- > Catheterization & clysis
- > Holding, enwrapping
- > Bath
- > Changing napkin, feeding, clean eyes ear nose
- > Umbilical region nursing
- > Physical measurement: weight, height, sitting height,

head circumference, Chest circumference, upper-arm circumference, etc.

- > Skin care
- > Thermometry through anus, mouth

BATH BABY

PRODUCT CODE: DM-PS6610

FEATURES

- > New born female baby ,lifelike
- > Practice holding and enwrapping
- > Bath
- > Cleaning napkin feeding clean eyes ear nose
- > Physical measurement: body length, weight, chest

circumference, abdomen circumference, head circumference, etc.

> Skin care

SMART BABY

PRODUCT CODE: DM-PS6611

FEATURES

- ➤ Lifelike infant model ,realistic texture, flexible limbs, physiological bend range
- > Pulse voice indication of pulse, rectal temperature measurement, temperature voice indication
- > 6 status: normal, hunger, over eaten, pee, fever, fear, representing baby's status in different setting of scene
- > Simulating baby's behave under different status
- > Through different treatment, measure rectal

- temperature, feeding, comforting, change napkin to switch baby's status
- Under normal condition, as time goes on, baby will automatically enter pee or hunger status, a while after feeding ,baby will enter over eaten status

INFANT VENIPUNCTURE HEAD

PRODUCT CODE: DM-GP6601

FEATURES

- > Lifelike, soft and elastic
- > Clear visual observation of blood vessel
- > Forehead vein injection, superficial temporal vein injection, posterior auricular vein injection, etc.
- Obvious and realistic feedback when needle penetrates into the veins, blood backflow, indicates correct operation

ROTARY INFANT VENIPUNCTURE HEAD

PRODUCT CODE: DM-PS6601A

FEATURES

- Lifelike, soft and elastic
- Clear visual observation of blood vessel
- > Forehead vein injection, superficial temporal vein injection, posterior auricular vein injection, etc
- Obvious and realistic feedback when needle penetrates into the veins, blood backflow, indicates correct operation

Mechanical rotation device to shift the used blood vessel

FULL BODY INFANT HEAD INJECTION MODEL

PRODUCT CODE: DM-PS6635

FEATURES

- > Lifelike injection head is attached to a realistic texture infant body
- > Transfusion, blood sampling
- > Blood vessel is visible and realistic
- > Injection through superior frontal vein, posterior auricular vein, superficial temporal vein and occipitoposterior vein, liquid can be used in injection practice to provide realistic simulation
- > Correct penetration gives obvious and realistic feedback
- > Infant nursing skill practice

INFANT VENIPUNCTURE ARM

PRODUCT CODE: DM-PSI50S

FEATURES

- > Realistic infant arm, lifelike texture, clear anatomical feature
- > Arm is flexible for hand back venous puncture, blooding sample taking, transfusion, realistic feedback with blood backflow when penetrated
- > Skin and blood vessels are replaceable

INFANT VENIPUNCTURE LEG

PRODUCT CODE: DM-PS340S

FEATURES

- > Infant leg, accurate anatomical structure
- > Realistic feedback and blood backflow when penetrating correctly
- > Dorsal vein puncture of foot, the great saphenous vein puncture, small saphenous vein puncture ,heel puncture

INFANT ARTERIAL **PUNCTURE ARM**

PRODUCT CODE: DM-PS370S

FEATURES

- > Obvious osteal marks, can simulate artery pulse manually
- > Can perform radial artery puncture, drawing blood,infusion, there is obvious feeling when penetrating into vein ,blood flashing-back indicates proper puncture
- > Skin and arterial blood vessel are replaceable

INFANT BONE MARROW PUNCTURE

PRODUCT CODE: DM-PS6302

FEATURES

- > Child right leg at standard position
- > Clearly anatomical mark: knee-joint, patella, shin bone and tuberositas tibiae
- > Bone marrow puncture traning
- > Suitable for repeated practice

CHILD BONE MARROW **PUNCTURE LEGIRIGHT**

PRODUCT CODE: DM-PS6301

FEATURES

- > Child right leg at standard position
- > Clearly anatomical mark : knee-joint, patella, shin bone and tuberositas tibiae
- > Bone marrow puncture traning
- > Suitable for repeated practice

CHILD BONE MARROW AND **FEMORAL VEIN PUNCTURE**

PRODUCT CODE: DM-PS6261

- > Lifelike child leg, accurate anatomical structure
- > Bone marrow puncture:
 - Clear body featuers : patella tibia and tibial tuberosity
 - Realistic feedback, bone marrow outflow
- Replaceable skin and bone
- > Femoral venous puncture:
 - Touchable femoral pulse
 - Realistic feedback and venous return
 - Replaceable Injection pad

68

INFANT WHOLE BODY VENIPUNCTURE SIMULATOR

PRODUCT CODE: DM-PS6200

FEATURES

- Infant systemic venousHead veins, elbow median and hand venipuncture
- > The great saphenous vein, small saphenous vein injection, transfusion (left leg)
- > Femoral vein puncture (right leg)
- > Manual squeeze air balloon to simulate pulse on limbs
- > Air way intubation

- > Nasal feeding, gastric intubation, suction
- Realistic feedback with blood backflow when penetrated
- > Vein vessel and skin can stand hundreds of times repeated puncture

INFANT LUMBAR PUNCTURE MODEL

PRODUCT CODE: DM-PS6300

FEATURES

- Realistic infant size
- Accurate anatomical structure
- > Puncture spot between 3rd & 4th lumbar vertebrae;
- > Realistic feedback when penetrating into vein, fluid outflow indicates correct operation
- > Spinal column replaceable

MULTI-FUNCTIONAL ONE YEAR OLD CHILD SIMULATOR

PRODUCT CODE: DM-PS3320/DMPS3320A

FEATURES

- Airway management, oral/nasal cavity intubation, tracheotomy, sputum aspiration, oxygen inhalation and oral/nasal feeding
- > Venipuncture, transfusion (blood), draw blood.
- > Systemic venous include: Head superficial temporal vein, posterior auricular vein, right arm vein, the great saphenous vein (left), femoral vein (right) andumbilical vein. Realistic feedback and blood backflow.
- > Bone marrow transfusion
- > Newborn baby artery pulse: umbilical artery,

- brachia! artery (right), radial artery (right), femoral
- artery (right) andleft foot dorsal artery Basic newborn baby nursing skill training: bath, change cloth, hair care, eye/ear clean and drops, mouth care
- Upgrade option: DM-PS3320A, CPR training, with controller, indicate the press depth, frequency and ventilation

FULL FUNCTIONAL CHILD NURSING SIMULATOR

PRODUCT CODE: DM-PS3330/DM-PS3330A

FEATURES

- > Pupil observation: normal and dilated pupil
- Child nursing skill: full body bandage exercise, bathing, changing clot hes, hair combing, eye and ear washing and administering, and oral cavity nursing
- Air way management, realistic and accurate anatomical structure for practicing intubation, sputum aspiration and oxygen therapy
- > Oral and nasal feeding
- Gastric lavage
- > Venipuncture, injection, transfusion (blood), realistic feedback with blood backflow
- > Intramuscular injection in bilateral deltoid, bilateral vastus lateralis and bilateral buttock
- > Enema and placement of rectal suppository
- > Urethral catheterization, male/female exchangeable

- > Holistic care: sponge bath, changing of clothes and cold/ hot therapy
- > Flexible limbs for nursing movements
- > Bathing and bandage
- > Ostomy nursing of ileum, colon and bladder
- > Tibia bone marrow puncture: simulate the process of bone marrow puncture, clear anatomical mark .
- > Simulated bone marrow outflow after correct puncture
- Upgrade option: DM-PS3330A, CPR training, with controller, indicate the press depth, frequency and ventilation

DOWN'S BABY

PRODUCT CODE: DM-GP6101

- > Down's baby model, realistic and lifelike texture
- > Nursing skill : holding, feeding, bathing, etc
- > Down's baby's characteristic
- > Body measurement
- > Male/female optional

CARDIOPULMONARY PALPATION AND AUSCULTATION MANIKIN

PRODUCT CODE: DM-PE6414

FEATURES

- > Life size, realistic texture
- > LCD display monitor
- > 99 sounds include: normal and abnormal cardiac sounds, cardiovascular murmur, pericardial friction sound, pathological respiratory sounds, etc.
- > Palpation and auscultation practice and examination

CARDIOPULMONARY PALPATION AND AUSCULTATION MANIKIN

PRODUCT CODE: DM-CS6229

FEATURES

- Automatically pulse of carotid artery and femoral artery
- > Percussion: aeropleura position and extent, liver border of dullness, shifting dullness in abdomen
- > Liver puncture septic surgery operation, patient may groan
- > Replaceable bone marrow puncture modules
- > Voice prompts for correct and wrong puncture
 - Convenient and flexible console
 - Convenient to set up and move
 - Manikin's position can be changed easily, supine position, sitting position, semi-sitting position and right arm reclining, etc.
 - Select button on the control desk, with body contour, instruct the needle site

- Liver puncture: can choose breath holding prompts to limit the puncture time, puncturing during the breath holding time is correct
- Realistic simulation of operation process, provide 11 kinds of operation and puncture training: Sterile operation, right internal jugular vein, right subclavian vein, right femoral vein, left aeropleura, left pleural effusion, liver puncture septic, abdominal puncture, pericardia I chamber puncture, intracardiac injection, anterior superior iliac spine bone marrow puncture

CENTRAL VENOUS INJECTION MODEL

PRODUCT CODE: DM-CS6237

FEATURES

- > Adult torso in supine position
- > Clear anatomical marks
- > Carotid artery pulse , femoral artery pulse
- > Internal jugular vein puncture, external jugular vein puncture, subclavian vein puncture, femoral vein puncture
- > Replaceable gro in, neck module and blood vessel

ABDOMINAL SHIFTING DULLNESS PERCUSSION AND PUNCTURE MODEL

PRODUCT CODE: DM-CS6232

FEATURES

- > Lifelike appearance, realistic texture
- Clear anatomical landmarks, include the inferior edge of costal arch, xiphoid, anterior superior iliac spine, iliac crest, etc.
- > Interchangeable between left and right lateral position for abdominal shifting dullness percussion
- > Abdominal puncture can be practiced when model lies in tilt position or left lateral post i on .
- > Successful puncture will feel realistic feedback , allow extracting seroperitoneum

BONE MARROW ASPIRATION MODEL

PRODUCT CODE: DM-CS6233

FEATURES

- > Patient lay facing up, lifelike texture
- > Clear anatomical landmarks
- Anterior superior iliac spine puncture presternum puncture training, realistic feedback, bone marrow extraction

ABDOMINAL CAVITY PUNCTURE MODEL

PRODUCT CODE: DM-CS6232A

FEATURES

- > Model is an adult belly, precise anatomical structure, clear landmarks
- > Practice abdominal cavity puncture
- > Electronic monitor indicating operation
- > Extracting pyoperitoneum

FULL FUNCTION VENIPUNCTURE MODEL

PRODUCT CODE: DM-CS6240

- > The model lies in supine position, shoulder rising, head tilting toward left. Soft material makes real skin touch
- Clear anatomical land marks , including clavicle, sternocleidomastoid, suprasternal fossa, umbilicus, groin, inguinal ligament
- > Pulse of carotid and femoral artery are electronically simulated
- > Jugular puncturing, subclavian vein punct uring, external jugular puncturing, femoral vein puncturing could be practiced.
- > An absence of resistance would come when puncturing successfully and simulated blood can be extracted
- > Cardiac floating catheter operation

PERICARDIAL PUNCTURE AND INTRA CARDIAC INJECTION MODEL

PRODUCT CODE: DM-CS6234

FEATURES

- > The model is in inclining clinostatism with realistic texture
- > Accurate anatomical st ruct ure : sternum, xiphoid process, ribs, intercostal space, etc.
- > Puncture training in pericardia! area and inferior to the junction of xiphoid process and the 7th costicartilage is available, when the puncture needle enters pericardia! cavity, there is liquid coming out

LIVER ABSCESS AND THORAX PUNCTURE MODEL

PRODUCT CODE: DM-CS6236

FEATURES

- > Standard patient positions, realistic texture
- Accurate anatomical structure, clavicle, armpit, gags between ribs can be easily detected for locating puncture
- > Practice liver abscess puncture, guided by voice indication, realistic feedback of absence of resistance, liver pus extraction
- > Thorax cavity puncture, percussion confirmation, realistic feedback, pleural fluid extraction
- > Electronic monitoring, voice alert

THORACIC DRAINAGE MODEL

PRODUCT CODE: DM-CS6235

FEATURES

- > Standard patient supination position, realistic texture
- > Accurate anatomical structure, clavicle, sternum,
- > Mechanical breathing device, visible movement
- Drainage tube placement operation
- > Drainage tube after treatment practice

LUMBAR PUNCTURE MODEL

PRODUCT CODE: DM-CS6226

FEATURES

- Adult waist model, include posterior superior iliac spine, arch of lumbar vertebra, etc
 Allow sitting or lie on the side puncture position
 1st lumbar for observation, 3d - 5th lumbar are functional part
- > Spinal canal anesthesia
- > Diagnostic puncture and treatment puncture
- > Realistic feedback of absence of resistance when penetrating yellow ligament, cerebrospinal fluid flow out upon correct puncture

CENTRAL VENOUS CATHETERIZATION MODEL

PRODUCT CODE: DM-CS6041

FEATURES

- > Adult upper body
- > Clear anatomical structure, sternal notch, clavicle, rib, etc.
- Include superior vena cava, internal jugular vein, carotid artery, inferior vena cava, carotid artery pulse
- Replaceable skin and blood vessel, internal jugular vein puncture
- > Realistic feedback of resistance absence, extracting
- > Transfusion, parenteral alimentation treatment

PERIPHERALLY INSERTED CENTRAL CATHETERIZATION (PICC)

PRODUCT CODE: DM-CS6040

FEATURES

- > Adult upper body, right side
- > Clear anatomical structure, sternal notch, clavicle, rib, etc.
- Venipuncture on superior vena cava, internal jugular vein, carotid artery, inferior vena cava, basilica vein, median cubital vein
- > Replaceable skin and blood vessel

- > Realistic feedback of resistance absence, extractin
- > Transfusion, parenteral alimentation treatment

THORACIC CAVITY CLOSED DRAINAGE MODEL

PRODUCT CODE: DM-CS6228

- > Clear anatomical structure for convenient locating
- > Left side is operation area, right side is demonstration area, demonstrate structure of thoracic cavity
- > Allow repeating operation
- > Thoracic Cavity Closed Drainage operation
- > Treatment after drainage
- > Pneumothorax puncture
- > Extracting pleural effusion

PRODUCT CODE: DM-CS6238

FEATURES

- > Adult leg, flexible joint for various positions
- > Clear anatomical structure: knee joint, patella, tibia, tibial plateau
- > Replaceable skin, patella
- > All four sides of patella are suitable for puncture
- > Femoral vein puncture

PNEUMOTHORAX MODEL

PRODUCT CODE: DM-CS6227

FEATURES

- > Clear anatomical structure: clavicle, ribs, sternum, convenient locating
- > Repeatable practice and exchangeable
- > Convenient inflating
- > Pneumothorax puncture
- > Realistic breaking through feedback

SURGICAL SUTURING AND BANDAGING MODEL

PRODUCT CODE: DM-CS6225

FEATURES

- > Model is an adult body with 21common surgical incisions
- > Actual skin suture device is used on some incisions for demonstration
- > Practice various wounds treatment, clean, change dressing, bandage
- > Incisions include:
- Thyroidectomy
- Nephrectomy
- Colon stoma
- Ileum stoma
- Thigh amputation

- Bladder fistula Inguinal hernia

- Osmidrosis operation
- Amputation of upper limb
- Resection of appendix
- Hysterectomy for

abdominal hysterectomy

- Pneumothorax drainage Open chest operation

 - Two stage bedsore
- Exploratory laparotomy
- Vertebral Lamina
- Resection of mammary gland
- Breast abscess incision
- Femoral artery puncture incision
- Cholecystectomy (catheter drainage)
- Open chest drainage (drainage)

INFERIOR POSITION **BANDAGING MODEL**

PRODUCT CODE: DM-CS120L

FEATURES

- > Adult lower body, clear anatomical structure: umbilical, anterior superior iliac spine, anal cleft
- > Right leg represent below knee amputation, left legrepresent middle thigh amputation
- > Various bandage methods practice
- > Provide bandage and scarf bandage

PERITONEAL DIALYSIS MODEL

PRODUCT CODE: DM-CS6407

FEATURES

- > Simulation of patient under peritoneal dialysis operation
- > Totally enclosed liquid container, prevent leakage
- Postoperative nursing care

PREOPERATIVE STERILIZING MODEL

PRODUCT CODE: DM-CS190L

FEATURES

- > Realistic texture
- > Precise anatomical structure, lifelike texture
- > Thorax, clavicle, ribs, rib gap, ventral horn,
- > Xiphoid, inferior edge of rib bow, ilium, anterior superior iliac, spine, pubis
- Surgical disinfection

SUPERIOR POSITION **BANDAGING MODEL**

PRODUCT CODE: DM-CS130L

FEATURES

- > Adult upper body, realistic texture, clear anatomical structure
- > Flexible joints, left armrepresents elbow amputation
- > Various bandage methods practice
- > Clavicle, forearm, humerus fracture fixation
- > Provide bandage and scarf bandage

SUTURING ARM

PRODUCT CODE: DM-CS6201

- > Adult arm, lifelike texture
- > Repeatable practice
- Practice cutting, suturing, knotting, bandaging, taking out stitches, etc.
- > Both left/right armoptional

SUTURING LEG

PRODUCT CODE: DM-CS6203

FEATURES

- > Adult leg, lifelike texture
- Adult arm, lifelike texture
- > Repeatable practice
- Practice cut t ing , suturing, knotting, bandaging, taking out stitches, etc.
- > Both left/right legoptional

NAIL EXTRACTION MODEL

PRODUCT CODE: DM-CS6219

FEATURES

- > Model is infected finger with lifelike skin and nail
- > Finger is fixed on a stand for operation
- > Provide four replacement fingers
- > Practice nail extraction

SUTURING SKIN PAD WITH **STAND**

PRODUCT CODE: DM-CS6206

FEATURES

- > Clear skin layers, realistic skin tissue tension
- > Practice cutting, suturing, knotting, taking out stitches
- > Fixing stand for convenient practice

INTESTINE ANASTOMOSIS MODEL 20MM/30MM

PRODUCT CODE: DM-CS6208

FEATURES

- > Lifelike and durable texture, realistic skin layers
- > Repeatable practice
- > Practice intestinal canal cutting, suturing, knotting and taking out stitches

SUTURING TRAINING KIT

PRODUCT CODE: DM-CS6221

FEATURES

- > Common surgical instruments
- > Skin suturing pad, lifelike texture and realistic skin
- > Practice cutting, suturing, knotting, taking out stitches, etc.

LOCAL ANESTHESIA TRAINING KIT

PRODUCT CODE: DM-CS6222

FEATURES

- > Include training skin pad and operation instruments
- > Practice local anesthesia operation
- > Finger and toe local anesthesia practice

MULTI-FUNCTIONAL MINOR OPERATION TRAINING KIT

PRODUCT CODE: DM-CS6223

FEATURES

- > Provide three types skin pad for excision of sebaceous gland cyst, excision of tumor, common skin lesions treatment
- > Include common surgical operation instruments
- > Simulating wound treatment

NAIL EXTRACTION TRAINING KIT

PRODUCT CODE: DM-CS6224

- > Include three fingers and one stand
- > Finger has realistic anatomical structure: skin, nail and nail bed
- > Practice three operations
- > Postoperative care

KNOTTING SKILL TRAINING MODEL I

PRODUCT CODE: DM-CS6210

FEATURES

- > Three different size transparent cylinders construct space for knotting practice
- > Simulating different tension through magnetism
- > Inflated blood vessel to create realistic tension
- > Special socket design for convenient installation
- > Simulating various operation circumstance for practicing different knotting methods

KNOTTING SKILL TRAINING MODEL II

PRODUCT CODE: DM-CS6239

FEATURES

- > Multiple different size cylinders for different knotting space simulations
- > Special construction design for efficient use of space
- > Practice various knotting methods
- > Simulating various operation circumstances

MULTI-FUNCTIONAL ELECTRONIC KNOTTING MODEL

PRODUCT CODE: DM-CS6210A

FEATURES

- > Simulating different tension through magnetism, equipped with aler
- > Inflated blood vessel to create realistic tension
- > Special socket design for convenient installation
- Simulating various operation circumstance for practicing different knotting methods

DEEP TENSIONAL KNOTTING SKILL TRAINING MODEL

PRODUCT CODE: DM-CS6211

FEATURES

- Made of transparent material, consist of five different size cylinders
- > Knotting met hods : single hand knot, both hands knot, device knot
- > Knotting types: single knot, square knot, triplication knot, surgical knot, slip knot, etc.
- > Simulation of various circumstances

SUPERFICIAL KNOTTING SKILL TRAINING MODEL

PRODUCT CODE: DM-CS6212

FEATURES

- > Repeatable practice of superficial knotting skill
- > Economic and durable

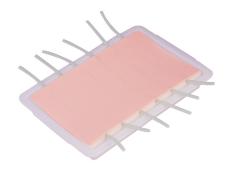

VEIN INCISION MODEL

PRODUCT CODE: DM-CS6213

FEATURES

- > Practice vein cutting and tube placement
 - Cut and expose vein
 - Separate blood vessel
 - Blood vessel pulling and knot
 - Tube placement
 - Skin suture

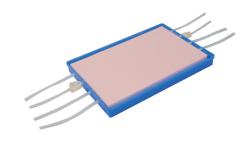

VESSEL SEPARATING & LIGATION MODEL

PRODUCT CODE: DM-CS6214

FEATURES

- > Multiple built-in blood vessels for repeating practice, economic and durable
- Clear skin layers, realistic tissue tension
- > Inflated blood vessel provide realistic tension and feedback
- > Practice blood vessel separation , knotting

SURFACE VESSEL LIGATION AND HEMOSTASIS TRAINING MODEL

PRODUCT CODE: DM-CS6215

- > Simulate patient bleeding
- Different inner diameter blood vessel, realistic bleeding state
- > Practice knotting, stop bleeding

PRODUCT CODE: DM-CS6216

FEATURES

- > Each skin pad contains two integrate cyst
- > Sebaceous cysts resection operation and postoperative care

LIPOMA RESECTION MODEL

PRODUCT CODE: DM-CS6217

FEATURES

- > Each skin pad contains two integrate cyst
- > Lipoma resection operation and postoperative care

SKIN LOCAL INFILTRATION ANESTHESIA TRAINING MODEL

PRODUCT CODE: DM-CS6218

FEATURES

- > Include the different marking represent different anesthesia range
- > Special colored detergent for observing infiltration range
- > Practice skin local infiltration anesthesia

SKIN PAHOTOLOGY TREATMENT MODEL

PRODUCT CODE: DM-CS6243

FEATURES

- > Each module include three pathologies: skin tags, skin mole, seborrheic keratosis
- > Practice skin tags resection, skin mole resection, seborrheic keratosis curettage
- > Realistic texture

SURGICAL SKILLS TRAINING SET

PRODUCT CODE: DM-CS6220

FEATURES

- > Practice skin cutting, suturing, knotting, taking out stitches, etc.
- > Include skin pad, 20mm and 30mm inner diameter intestinal canal
- > Practice blood vessel forceps clip, cut, ligature
- > Narrow space built by transparent organic glass for practicing deep depth knotting

SKIN LOCAL INFILTRATION ANESTHESIA RING MODEL

PRODUCT CODE: DM-CS6251

FEATURES

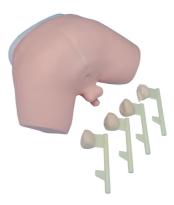

- > Rotation injection module
- > Special colored detergent for observing infiltration range
- > Finger, toe local anesthesia practice

PROSTATE EXAMINATION MODEL

PRODUCT CODE: DM-CS6252

- > Four stages developm ent :
 - 1st stage: be nigh, slightly swelling but still normal
 - 2nd stage: feel hard tubercle with clear boundary in upper right area, early stage of prostate tumor
- 3rd stage: tumor spread, tubercle becomes tumor
- 4th: entire gland body become tumor, irregular surface, hard texture

RECTAL TOUCH MODEL

PRODUCT CODE: DM-CS6253

FEATURES

- > Prostate Palpation:
- > Normal prostate: chestnut shape, transverse diameter 4cm, vertical diameter 3cm, anteroposterior 2cm.
- > A longitudinal superficial channel at the center of the back of corpus glandulare prostate is central fissure of prostate
- Benign prostatic hyperplasia: prostatoplasia I tumid prostate, egg size, flat back, shallow central fissure
- > Benign prostatic hyperplasia: prostatoplasia II. More tumid prostate, duck egg size, central fissure disappeared.
- > Benign prostatic hyperplasia: prostatoplasia III. Most tumid prostate, hard, goose egg size, inferior end can not be reached

- > Rectum Palpation
- Normal rectum
- Rectal polyp.
- > The earlier period of rectum cancer: a hard knub can be touched
- The later period of rectum cancer: a bigger knub can be touched, irregular shape, and much harder than earlier period. It's the latest development of rectum cancer.

RECTAL EXAMINATION MODEL

PRODUCT CODE: DM-CS6254

FEATURES

- > Model simulates rectum examination, evaluate viscosity of feces
- > Model lie on left side, realistic shape and texture
- > Replaceable feces for palpation examination
- > Provide 9 types different solidity feces 13 images represent different intestinal diseases
- > Rectum touch examination

NOSE BLEEDING MODEL

PRODUCT CODE: DM-CS6271

FEATURES

- > Model is an adult head
- > Precise anatomical structure
- > Simulating various nose bleeding situation
- > Adjustable bleeding flow

- > 4 bleeding positions for stop bleeding
- > Light indication upon successful stop bleeding

NASAL CAVITY EXAMINATION MODEL IELECTRONIC

MONITORING

PRODUCT CODE: DM-CS6272

FEATURES

- > Model is adult upper body, standard examination position
- > Realistic appearance, accurate anatomical structure
- Practice nasal cavity examination
- > Electronic monitoring, light indication

PHARYNX AND LARYNX EXAMINATION MODEL IF I FOUR ONLY MONITORING

PRODUCT CODE: DM-CS6279

FEATURES

- > Adult upper body, mouth open naturally for examination
- > Realistic appearance, precise anatomical structure
- > Soft tongue can be pulled out for examination
- > 2cm cancer can be detected and examined on epiglottis
- > Practice laryngoscope, external monitor has light indication

EAR EXAMINATION MODEL

PRODUCT CODE: DM-CS6052

FEATURES

- Standard ear examination position
- > Precise anatomical structure: auricle, external auditory canal, tympanic membrane Practice using ear speculum

- > Include pathology accessories:
- Normal
- Membrane retraction Small perforation
- Full-Perforation
- Traumatic perforation on the membrane
- Central perforation of the posterior part of the dry
- Open tube
- Bullous myringitis
- Herpes blisters on the
- tympanic membrane
- Ear foreign body

Cholesteatoma

Serous otitis media

Acute otitis media

Supportive otitis media

• Chronic suppurative otitis

-tympanosclerosis plaque

effusion

Crescent

media

- Ear cleaning
- Early acute otitis media
- Tympanic membrane sclerosis

RETINOPATHY EXAMINATION MODEL

PRODUCT CODE: DM-CS6049

FEATURES

- > A well-shape adult head, electronic control
- > It simulates 29 retinopathies, left eye includes 17 retinopathies, right eye includes 12 retinopathies.
- Left eye retinopathy phantoms, including:
 - 1. Normal retina-2
- 2. Senile macular degeneration -2
- 3. Senile macular degeneration glass warts-1
- 4. Central retinal vein occlusion
- 5. Hypertensive retinopathy-1
- 6. Optic nerve depression
- 7. Optic nerve atrophy-2
- 8. Background type diabetic retinopathy-1
- 9. Background type diabetic retinopathy-4
- 10. Background type diabetic retinopathy-5
- 11. Background type diabetic retinopathy-6-with Cotton-wool spot and blood spots
- 12. Proliferative diabetic retinopathy-2
- 13. Proliferative diabetic retinopathy-4
- 14. Proliferative diabetic retinopathy-5
- 15. Proliferative diabetic retinopathy-2-with Newblood vessels and fibrous proliferation
- 16. Proliferative diabetic retinopathy-3-with Newblood vessels, fibrous proliferation and Concurrency retinal detachment
- 17. Systemic lupus erythematosus retinopathy

- > Right eye retinopathy phantoms, including:
 - 1. Normal retina-1
 - 2. Branch retinal vein occlusion
- 3. Hypertensive retinopathy-2
- 4. Optic disc edema-1
- 5. Optic disc edema-2
- 6. Optic nerve atrophy-1
- 7. Background type diabetic retinopathy-2-with redspot, retinal microaneurysm
- 8. Background type diabetic retinopathy-3-with microangioma and small hemorrhagic spot
- 9. Proliferative diabetic retinopathy-1
- 10. Proliferative diabetic retinopathy-3
- 11. Proliferative diabetic retinopathy-6
- 12. Proliferative diabetic retinopathy-1-with newblood vessels or vitreous hemorrhage

ELBOW JOINT CAVITY INJECTION MODEL

PRODUCT CODE: DM-CS6264

FEATURES

- Accurate anatomical structure, include internal and external humeral epicondyle, ulnar nerve, ulna, radius, elbow joint cavity, etc.
- > Golf elbow and tennis elbow treatment position
- > Monitor indication
- > Joint cavity injection

SHOULDER JOINT CAVITY INJECTION MODEL

PRODUCT CODE: DM-CS6262

FEATURES

- Precise anatomical structure, shoulder blade, clavicle, humerus, the deltoid, the biceps brachii and shoulder joint ligament
- > Shoulder joint puncture
- > 6 puncture positions:
 - Shoulder joint cavity (front)
 - Shoulder lock joint
- Shoulder joint cavity (rear)

- Tendon sheath
- Subacromial bursa
- Nerve block on the shoulder
- > Electronic monitoring system

KNEE JOINT CAVITY INJECTION MODEL

PRODUCT CODE: DM-CS6263

FEATURES

- > Precise anatomical structure
- > Lifelike texture, realistic resistance feedback
- > Electronic monitoring with light indication
- > Repeatable practice
- One way valve for injecting "bursae synovialis" and seal automatically

PROSTATE EXAMINATION MODEL

PRODUCT CODE: DM-LAP-A

- Advanced Laparoscopic Training Simulator LAP-A is composed by Laparoscopic training simulation box, USB video connection, Image collector (Ultra HD Autofocus), 19 inch all-in-one touch screen, training module, surgical instruments, it allowing the learner to acquire basic laparoscopic skills.
- > Skills training:
 - Basic laparoscopic skills
 - Laparoscopic suturing

- Individual or team training
- Hands-on skills training
- Hand-eye coordination
- > 5 training moudles:
 - Suture pad
 - Loops and wire
 - Pea on a peg
 - Wire chaser
 - Post and sleeve

HUMAN MUSCLE MODEL

PRODUCT CODE: DM-T1010

FEATURES

> 80cm human muscle model include 27 dissectible parts: body, cut calvarium, brain (2 parts), thoracic and abdominal wall, right arm, left arm (5 parts), leg (9 parts), lung (2 parts), heart (2 parts), liver, stomach and intestine

TRI-SEX HUMAN TORSO 85CM

PRODUCT CODE: DM-T1003

FEATURES

> 85cm human torso include 21 parts: torso, female breast plate, head, eyeball, brain, vertebra spinal nerves, lung (2 parts), heart (2 part s), female genitalia with fetus (3 parts), none sex genitalia.

HUMAN SKELETON 85CM

PRODUCT CODE: DM-SK1100

FEATURES

> Half size skeleton contains 200 bones, flexible jaw, removable calvarium and detachable legs

UNISEX HUMAN TORSO 85CM

PRODUCT CODE: DM-T1004

FEATURES

> Torso has an exposed spine with removable vertebra and spinal cord segments, a female breast plate and interchangeable male and female genitalia. Female organs include a fetus in the womb . Dissectible into 40 part s: torso, female breast plate, head, eyeball, brain (8part s), vertebra spinal nerves (4 parts), lung (4 parts), heart (2 parts), trachea, esophagus and descending aorta, diaphragm, liver, kidney, stomach (2 parts), intestines (4 parts), male genitalia (4 parts), female genitalia with fetus (3 parts).

SEXLESS TORSO 42CM

PRODUCT CODE: DM-T1005

FEATURES

Model include 18 parts: torso, head, brain, trachea, esophagus and descending aorta, diaphragm, lung (4 parts), heart (2 parts), st omach, liver, kidney, pancreas and spleen, intestine, vertebra spinal nerves

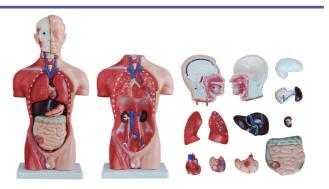

MALE HUMAN TORSO 42CM

PRODUCT CODE: DM-T1006M

FEATURES

> Male human torso include 13 parts: torso, head (2 parts), brain, lung (2 parts), heart (2 parts), stomach, liver, kidney, pancreas and spleen, intestine.

FEMALE HUMAN TORSO 42CM

PRODUCT CODE: DM-T1006F

FEATURES

> Female human torso include 15 part s: t orso, head (2 parts), br ai n, lung (2 parts), heart (2 parts), st omach, liver, kidney, pancreas and spleen, int est i ne, female genitalia (2 parts)

SEXLESS HUMAN TORSO 85CM

PRODUCT CODE: DM-T1007

FEATURES

> Model include 20 parts: torso, head, eye, brain, lung with sternum and rib attachments (2 parts), heart (2 parts), stomach (2 parts), liver, spleen, kidney, intestine (4 parts), urinary bladder, vertebra spinal nerves (2 parts).

LIFE-SIZE HUMAN SKELETON 180CM

PRODUCT CODE: DM-SK1101

FEATURES

> Life size articulated adult skeleton, ideal model for demonstrating human anatomical st r uct ure.

Arms and legs are det ac ha ble. Features nerve branches, vertebral artery and herniated lumbar disc.

Skull includes movable jaw, cut calvari num, suture lines and 3 removable lower teeth

UNISEX HUMAN TORSO 45CM

PRODUCT CODE: DM-SK1008

FEATURES

> Model include 23 parts: torso, female breast plate, hea d, eyeball, brain, vertebra spinal nerves, lung (2 parts), heart (2 part s), liver, kidney, stomach (2 parts), intestines (4 parts), male genitalia (2 parts), female genitalia with fetus (3 part s)

HUMAN SKELETON WITH COLORED MUSCULAR & LIGAMENTS 180CM

PRODUCT CODE: DM-SK1102

FEATURES

> Life size adult skeleton with painted muscles and ligaments. Left side of skeleton shows points of origin (red) and points of insertion (blue) of the muscles

HUMAN SKELETON 45CM

PRODUCT CODE: DM-SK1103

FEATURES

> Miniature skeleton model features a movable jaw on springs, removable calvari um, arms and legs that are removable for individual demonstration

CERVICAL VERTEBRAL COLUMN WITH NECK ARTERY

PRODUCT CODE: DM-SK1107

FEATURES

Consist of occipital plate, the 7 cervical vertebrae with intervertebral discs, cervical nerves, vertebral arteries and spinal cord.

LIFE-SIZE LUMBAR VERTEBRA WITH SACRUM & COCCYX AND HERNIATED DISC

PRODUCT CODE: DM-SK1109

FEATURES

Consist of 5 lumbar vertebrae with intervertebral discs, sacrum with fla p, coccyx, spinal nerves and dura mater of spinal cord.

VERTEBRAL COLUMN WITH PELVIS

PRODUCT CODE: DM-SK1104

FEATURES

> The model demonstrates all significant features of each vertebra, including spinal cord, nerve roots, the vertebral artery, a herniated disc and vertebral notch et c. Special features include: inflexible 29" tall vertebral column complete with pelvi s, sacrum, occipital bone, vertebral art ery, all verve branches and herniated lumbar disc.

LUMBAR VERTEBRA

PRODUCT CODE: DM-SK1108

FEATURES

Life size lumbar vertebrae are shown with normal intervertebral disc and spinal cord with nerve roots.

MINI LUMBAR VERTEBRA WITH SACRUM & COCCYX AND HERNIATED DISC

PRODUCT CODE: DM-SK1110

FEATURES

Consist of 5 lumbar vertebrae with intervertebral discs, sacrum with flap, coccyx, spinal nerves and dura mater of spinal cord

ADULT MALE PELVIS

PRODUCT CODE: DM-SK1127

FEATURES

> Life size male pelvis, demonstrate anatomical features of adult male pelvis

FEMALE PELVIS MUSCLES AND ORGANS

PRODUCT CODE: DM-SK1128A

FEATURES

> Model is designed to demonstrate female pelvic muscles and organs

SKELETON FEMALE PELVIS AND FETUS

PRODUCT CODE: DM-SK1128-1

FEATURES

Model consists of 2 in nominate bones, sacrum, coccyx, with fetal sku11 which is firmly connected with the model by a flexible metal tube

ADULT FEMALE PELVIS

PRODUCT CODE: DM-SK1128

FEATURES

> Life size female pelvis, demonstrate anatomical features of adult female pelvis

FEMALE PELVIS WITH GENITAL, BLOOD VESSEL AND NERVES

PRODUCT CODE: DM-SK1128B

FEATURES

> Model painted i lifelike color, demonstrate all the interior and exterior female organ s, blood vessels, ligament, nerve s, muscle structures within the framework of the bony pelvis.

SKELETAL PELVIS WITH TWO LUMBARS

PRODUCT CODE: DM-SK1129

FEATURES

Model consists of hip bone, sacrum with coccyx and 2 lumbar vertebrae.

COLORED HUMAN SKULL

PRODUCT CODE: DM-SK1121

FEATURES

Life size human skull painted in different colors for demonstration can be disassembled into 3 parts.

LIFE-SIZE SHOULDER JOINT

PRODUCT CODE: DM-SK2109

FEATURES

> Demonstrates abduction, adduction, anteversion, retroversion and internal/external rotation. Include flexible, artificial ligaments.

LIFE-SIZE SKULL

PRODUCT CODE: DM-SK1121A

FEATURES

Life size skull features a movable jaw, cut calvarium and suture lines Have a more obvious manifestations of bone. Can be disassembled into 3 parts.

LIFE-SIZE HIP JOINT

PRODUCT CODE: DM-SK2110

FEATURES

Demonstrate abduction, anteversion, retroversion and internal/ external rotation. Include flexible artificial ligaments.

LIFE-SIZE KNEE JOINT

PRODUCT CODE: DM-SK2111

FEATURES

Demonstrates abduct ion, anteversion, retroversion, internal/ external rotation. Include flexible artificial ligaments.

LIFE-SIZE ELBOW JOINT

PRODUCT CODE: DM-SK2112

FEATURES

> Demonstrates abduction, anteversion, retroversion, internal/ external rotati on. Include flexible artificial ligaments.

LIFE-SIZE FOOT JOINT WITH LIGAMENTS

PRODUCT CODE: DM-SK2113

FEATURES

> Demonstrates all of foot functionality and external anatomical structures. Include flexible artificial ligaments.

DIGESTIVE SYSTEM

PRODUCT CODE: DM-D2001

FEATURES

> Model demonstrates alimentary canal from mouth to rectum in median section and display buccal cavity, pharynx, esophagus with half of the stomach, opened duodenum, small and large intestines, opened appendix, unfolded rectum, transverse colon, liver, pancreas, etc.

PANCREAS, SPLEEN AND DUODENUM

PRODUCT CODE: DM-D2004

FEATURES

> Life size, pancreas, spleen a duodenum are displayed, the pancreas is open to show the entire pancreas duct, and duodenum is partially dissected to expose inner structure.

LIFE-SIZE HAND JOINT WITH LIGAMENTS

PRODUCT CODE: DM-SK2114

FEATURES

Demonstrates all the hand functionality andexternal anatomical structures. Include flexible artificial ligaments

STOMACH

PRODUCT CODE: DM-D2002

FEATURES

> Model demonstrates cardia, pylorus, stomach fundus, stomach body, lesser and greater curvature of stomach, angular incisure, pyloric antrum and canal.

LEFT AND RIGHT LUNGS

PRODUCT CODE: DM-R3010

FEATURES

> Life size, separated in 4 parts, two removable lobes can be taken out from lungs for observing inner structure.

SKIN BLOCK MODEL

PRODUCT CODE: DM-S9001

FEATURES

> Model demonstrates a section of human skin in three dimensional forms. Hair , sebaceous and sweat glands, receptors, nerves and vessels are shown in details

LIVER, PANCREAS AND DUODENUM MODEL

PRODUCT CODE: DM-D2008

FEATURES

> Model demonstrates liver, spleen, blood vessels and pancreas. External structures are illustrated as well as the pancreatic duct of the pancreas. Also shows the abdominal aorta and inferior vena cava.

LARYNX, HEART AND LUNG MODEL

PRODUCT CODE: DM-R3012

FEATURES

> This life size model is separated into 7 parts. Lungs have two removable lobes to show the internal structures, heart bisects showing atria, ventricles and valves, larynx bisects and diaphragm is shown

SKIN SECTION MODEL

PRODUCT CODE: DM-S9002

FEATURES

> Model demonstrates layers of skin, first rudiments of hair, sweat gland, sense organs of skin, connected with side hinges. \ \ \ \ \

LIVER MODEL

PRODUCT CODE: DM-D2009

FEATURES

> Model demonstrates basic anatomical structure of liver. Complex vessels network in the opened liver, displayed in different colors in the liver model: hilus vessels, the extra-hepatic and intra-hepatic bile ducts.

URINARY SYSTEM

PRODUCT CODE: DM-U4001

FEATURES

> Model demonstrates structure of retroperitoneal cavity, pelvis with bones and muscles, inferior vena cava, aorta with its branches, upper urinary tract, kidney with adrenal gland, ureter, bladder, etc.

MALE UROGENITAL SYSTEM

PRODUCT CODE: DM-U4002

FEATURES

> Model demonstrates external features of urogenital system and internal structure of the kidney, urinary bladder, penis and testicle.

KIDNEY, NEPHRON AND GLOMERULUS

PRODUCT CODE: DM-U4007

FEATURES

> Model consists of 3 models, demonstrates structure of the renal section plane (include cortical substance, medull a, proximal convoluted tubule, distal conveoluted, connecting canal, mammillary ducts, minor renal calices, greater renal calices, pelvis of ureter, ureter), nephron structure, golomerus (include renal capsule, glomus) and blood vessels.

ENLARGED HEART MODEL

PRODUCT CODE: DM-S6018

FEATURES

This model shows the anatomy of human heart with aortic arc h, coronal section of atrium and ventricle, valves, veins in details. Dissectible into 3 parts, 4 times elarged.

FEMALE UROGENITAL SYSTEM

PRODUCT CODE: DM-U4003

FEATURES

> Model demonstrates kidney, ureters, urinary bladder, ut erus, accessories of uterus, vagina, ovary membrane, ligaments, uterus ligamen and its artery etc.

ENLARGED KIDNEY

PRODUCT CODE: DM-U4005

FEATURES

Model demonstrates medulla, minor renal calices, greater renal calices, pelvis of ureter, ureter, renal arteries, renal vena, etc.

FEMALE PELVIS WITH FETUS

PRODUCT CODE: DM-G4013

FEATURES

> This median section model demonstrates female pelvis during the 40th week of pregnancy with a removable fetus, normal position of child before birth, female genital organs, human reproductive and urinary systems. A uterus with embryo in 3d' month of pregnancy is mounted on base for observation.

FEMALE PELVIS SECTION

PRODUCT CODE: DM-G4012

FEATURES

The median section model demonstrates female genital organs with bladder and rectum.
The abdominal and pelvis muscles are represented in details.

EAR MODEL

PRODUCT CODE: DM-S7109

FEATURES

> Demonstration of outer, middle and inner ear. 1.5 times enlarged

LIFE-SIZE HUMAN HEART

PRODUCT CODE: DM-S6016

FEATURES

 Life size human heart model demonstrates precise anatomical structures.

MALE PELVIS SECTION

PRODUCT CODE: DM-G4011

FEATURES

> This median section model demonstrates normal position of male genital organs with bladder and rectum in the male pelvis

EAR ANATOMY

PRODUCT CODE: DM-S7108

FEATURES

> Model demonstrates three main structural parts of the hearing organ (external ear, middle ear, internal ear) and the position of the equilibrium organ of human body. 5 times enlarged, dissectible into 6 parts.

MAGINIFIED HUMAN LARYNX MODEL

PRODUCT CODE: DM-R3004

FEATURES

> Demonstrate movements of the epiglottis and cartilages in the voice box. Dissectible into 3 parts, 3 times enlarged

100 | LATINFLY

ENLARGED EYEBALL

PRODUCT CODE: DM-S7103

FEATURES

> 6 times enlarged eyeball demonstrates human eye anatomical structure, detachable for demonstrating tunica external, tunica media, tunica internal and refraction media

BRAIN WITH ARTERY AND NERVES

PRODUCT CODE: DM-PP1001A

FEATURES

> Life size brain model with artery and nerves mounted on base. Dissectible into 9 parts

NASAL CAVITY PRODUCT CODE: DM-R3002

FEATURES

> Model demonstrates external and internal structure of nasal cavity. Half like size.

ENLARGED EYE IN ORBIT

PRODUCT CODE: DM-S7104

FEATURES

Model demonstrates eyeball with optic nerv and muscles in its natural position in bony orbit. Dissectible into 10 parts, 3 times enlarged.

BRAIN MODEL

PRODUCT CODE: DM-PP1001B

FEATURES

> 2 times enlarged brain model, dissectible into 4 parts, labeled anatomical structures.

UTERUS MODEL WITH PATHOLOGY

PRODUCT CODE: DM-PP3009

FEATURES

> Model demonstrates uterus with pathologies in details, mounted on base with anatomical structure diagram card at back.
